### Square One Network Disaster Recovery Solution

When your main broadband line goes down, it can grind your business to a halt with no access to the internet, emails or server. In the event of a disaster, get your business back up and running within 1 hour with our Disaster Recovery Solution. Choose from either a 24 or 36 month contract and at the end of the term, just simply return the device and SIM back to us.

### The RUT950 is a highly reliable and secure LTE router for professional applications.

This router delivers high performance, mission-critical cellular communication. RUT950 is equipped with connectivity redundancy through dual SIM failover. External antenna connectors make it possible to attach desired antennas and to easily find the best signal location.

Data	Monthly Subscription x 24 Months	Monthly Subscription x 36 Months
100GB	£17.50	£15.00
200GB	£25.00	£20.00

### Packaged solution includes:

- SIM activation including Vodafone UK only SIM install and configuration
- Monthly data package included on each SIM (see table above)
- Device testing prior to shipping
- Logistics handling and tracking (devices either sent to Square One Network or direct to end user)

\* The router cannot be accessed more than twice in a calendar year and once in a calendar month
