NOKIA

Our Smartphone Promise

With mobile security threats on the rise and a number of recent high-profile malware attacks, it's not surprising the issue is moving higher and higher up the list of many businesses' priorities. So it's good to know that all our smartphones come with the same promise:

Pure

100% Android OS, with no bloatware consuming your memory or battery life

Secure

Monthly security patches on all of our smartphones

Up-to-date

All our smartphones come with the latest Android and Google innovations and are updated regularly

Android Enterprises Recommended Programme

Choosing the right phone for your workforce is more than a purchase - it's a commitment, and requires a lot of thought.

Security, deployment and ease-of-use are just some of the factors that you need to consider. That's why we've worked in partnership with Google to make sure our smartphones deliver, and why after rigorous testing our latest devices have earned the Android Enterprise Recommended seal. There's a lot to it, but the minimum set of requirements include:

Security

Regular security updates delivered within 90 days from Google release

Specs

Minimum 32GB storage and 2GB RAM

Enrolment

Supports bulk device enrolment with Zero Touch

Why Nokia for Business Phones?

Android Enterprise Recommended

What is Android Enterprise Recommended?

Android Enterprise Recommended makes it simple for businesses to confidently select, deploy and manage Android devices and services that meet elevated enterprise requirements validated by Google.

Select with confidence

Android Enterprise Recommended simplifies the selection process so you can start your search with a shortlist of approved devices and services. Select from a curated list of verified devices and services that meet elevated enterprise requirements from partners trained and supported by Google.

The Smarter Way to Keep Your Business Secure

Maximum Flexibility

Our devices are built business-ready, whatever your business needs. Whether you're supplying your workforce with a phone for single use, giving out a number of devices, or asking them to use their own Android phone, we have a solution for your business.

Select with confidence

Android Enterprise Recommended simplifies the selection process so you can start your search with a shortlist of approved devices and services. Select from a curated list of verified devices and services that meet elevated enterprise requirements from partners trained and supported by Google.

Latest Android enterprise innovations for your business

All Nokia smartphones come with multi-layered Android platform security which is kept up-to-date with the latest Android innovations. Thanks to the regular system updates and upgrades, you won't have to worry about your Nokia smartphone becoming outdated anytime soon.

Android One

A better mobile experience

Android One brings a Google designed software experience to a new range of Nokia smartphones. Get everything you want and nothing you don't with a streamlined, easy-to-use interface and a curated set of pre-installed apps, and free, unlimited high-quality photos storage with Google Photos.

Regular security updates and two years of OS upgrades means the Nokia smartphones with Android One stay secure and feature the latest Google innovations like being optimised for the Google Assistant.

Enterprise Mobility Management Compatibility

Thanks to pure Android without legacy, proprietary APIs, Nokia smartphones are EMM-compatible. This means you will save time and money when enrolling Nokia smartphones onto your chosen EMM solution. All Nokia smartphones with Android Oreo™ also support Google Zero Touch enrolment for a seamless setup and deployment of corporate-owned devices.

Smart and easy

The pure Android experience ensures every Nokia smartphone is dependable and simple to use, having eliminated bloatware that drains your battery and takes up valuable storage space. With an extensive selection of smartphones and accessories to choose from, there's something for everyone.

Nokia 3.1

Your Premium Companion

A design worth treasuring

The Nokia 3.1 looks and feels premium. It draws attention with its subtle curves and striking diamond-cut aluminium sides. And with its curved back and sculpted Corning® Gorilla® Glass display, the Nokia 3.1 nestles comfortably in your hand.

Operating System	Latest Android™
